STREET TO BE STRAIGHTENED—Pursuant to a report from City Engineer L. A. Washington the joint street committee of the general coun-

cil visited Clay street near Fountain avenue yesterday afternoon and were shown that the street is not straight, and that the property line extends three feet on one side over the street proper, while three feet of private property on the other side has been out off. Bynum was taken before Justice Barber and fined \$5 and costs, and then swore out a warrant against Hawkins, but the latter disappeared before it could be served on him.

BAGGED ONE

But Murderer Cowan Was Not Found By the Officers.

They Caught a Man Who Was Anxious to Get Away, However.

Captain Henry Bailey, City Jailor Evitts and several others went up to Duck's Nest this morning for the purpose of arresting Frank Cowan, the man wanted in Livingston county for the murder of Warren Woodward a short time ago. Cowan is believed to be in this section of the country, and as there is a large reward out for him, the officers are very anxious to capture him.

As they approached a boat, however, some man cut it loose and it began to drift down stream. Captain Bailey, who was some distance below, commanded the man to stop, but he wouldn't do it, and the officer shot to frighten him.

This still didn't stop him, and Captain Bailey then shot at him and the bullet grazed the man's neck. He then came in to shore and gave the name of John Abbott. Owing to his peculiar actions, it is believed he is wanted somewhere for something, and he was brought to the city and locked up in order to investigate his case.

J. D. Downey of the county, aged 40, and Laura Abanathy of the county, aged 23, were today licensed to wed. It will make the first marriage of both.

MENDED CHINA.

DON'T DO WELL WITH HOT WATER.

"We housewives know better than to use hot water on mended china and common sense tells me that coffee or tea should never be used by those who have undergone operations for stomach trouble or appendicitis, etc. In fact if it were not for the stomach troubles set up by coffee I believe these operations would not be necessary in 9 cases out of 10," says a lady of Peoria, Ill. "My husband has been changed from a confirmed dyspeptic to an average healthy eater by the use of Postum in place of coffee. I find it much richer and clearer by making over, always adding a little more fresh Postum and then proceed as if fresh. My husband never likes it fresh as well as the second or third make-over. Our physician who recommended Postum to us was a confirmed coffee drinker but found that one cup of Postum satisfied him and improved his digestion immediately. Another physician acquaintance had a similar experience. But I started to write you about my husband's condition. He had four operations for stomach trouble. I feel certain that had he used Postum in place of tea and coffee for years preceding these the operations would never have been necessary.

"Several weeks ago our Postum ran out and he used coffee for several days. His old trouble asserted itself at once and there was an immediate rush for Postum which drove the trouble away again." Name furnished by Postum Co., Battle Creek, Mich.

To bring out the heavy food value in Postum Cereal Coffee it must be cooked not less than 25 minutes altogether. It starts to boil in about 10 minutes then it should be slowly boiled full 15 minutes after boiling has commenced. Some housewives prefer it steeped for many hours or even made over.

Social Notes and About People.

A PLEASANT EVENING.

The military entertainment given by the Epworth League of the Broadway Methodist church on last evening was a very successful and interesting occasion. The League parlors were patriotically decorated in red, white and blue, flags, pictures of Washington, Jefferson, Robert E. Lee, McKinley and Roosevelt. The debate, "Resolved, That Washington was a greater warrior than Napoleon," was an interesting feature of the evening. Mr. F. B. May and Dr. Vernon Blythe were on the affirmative, while Mr. Alben W. Barkley stood for the negative and upheld the cause of Napoleon most logically and eloquently against two such notable speakers. The judges, Rev. W. H. Robinson and Messrs. Frank Davis and Plummer Newell, patriotically decided for the affirmative. National airs were played during the evening, and a military guessing contest furnished much pleasure. Light refreshments were served. There was an appreciative audience present.

Theatrical Notes.

A fairly large crowd witnessed "When We Were Twenty-One" at The Kentucky last night. It was the second presentation of this popular comedy in Paducah, and the audience was delighted with it. The principal characters were all cleverly drawn and few plays ever gave equal satisfaction in Paducah.

The Dick Fowler waited over at Cairo last night for the "Mr. Jolly of Joliet" company, which played there. A number of Paducah people attended the performance, and pronounce it one of the best shows they ever saw. It is at The Kentucky tonight.

"Mr. Jolly of Joliet" is the attraction at The Kentucky tonight. The piece comes well recommended as a smile-provoking entertainment and has been well received in the cities where it has been this season.

Cuba Not Explored. After more than 400 years it appears that Cuba has not yet been entirely discovered. Much of it and many of its treasures are yet unknown, according to the recent report made by Governor General Wood. He says that after the centuries of Spanish occupancy there are large portions of the island that have never been prospected and practically remain undiscovered, so far as knowledge of what they contain goes.

Copper Stock

The Majestic Copper Mining and Smelting Co.

in Beaver County, Utah, has ore lying on its dumps worth between \$1,500,000 and \$2,000,000 and seven million dollars more all ready for mining—ore blocked out or in sight.

These are simple facts easily determined. The entire capitalization of this Company, which owns eight groups of mines, namely: Hoosier Boy, Vicksburg, Harrington-Hickory, Old Hickory, O. K., Larkspur, Copperfield and Treasure Groups—wonderfully rich in Copper, Gold, Silver, Lead, Iron and Zinc, is but \$6,000,000. The mines are estimated by the leading mining experts to be worth many times the capitalization, and still the Majestic Company is selling some of its treasury stock at a price, \$7.50 (par value \$10.00), which will quickly raise the necessary money to complete its development work and make the last payment on its 350 ton smelting plant. This plant will be in running order in a few weeks. Thirteen carloads of copper ore from these mines worked up in Chicago showed 48 per cent. copper, and every ton of \$1,000,000 worth already marketed gave enough gold and silver to pay for putting smelted copper on the market free of cost. Company's own railroad tracks out to mines and smelter. Only enough more to sell to meet last payment on smelter plant, balance three-quarter million to be held for much higher prices. Stock will be listed on exchange in a short time, and will pay a fine dividend this year.

Once the smelters are running the "Majestic" will be absolutely independent, as it owns outright all of its wonderfully rich property.

The price of stock will be advanced in February and only persons writing at once will be able to secure stock at the present figure.

We will mail free handsome 44 page illustrated book, "Above and Below the Surface," which fully describes this great group of mines. Every statement we make is literally and exactly true, and may be verified by a visit to the mines with one of our parties of investors. Private car with every convenience leaves in a few days. Send in reservation now and pay for the stock when proof positive regarding its value is given you. Letters and telegrams will have immediate attention.
